LBS/Circular/2025/397

Dated: 12/03/2025

**CIRCULAR**

Dear Parents,

We are introducing a new teaching methodology at L.B.S. School called the **Personalised Constructive Education System**, starting from Class 1. This system let each child progress at their own pace based on their learning ability. Children who grasp concepts quickly and show strong skills can advance faster and study higher-level ideas and those who need more time or face learning difficulties will move forward at a speed that works for them with support to ensure they succeed.

Progression here depends on levels of knowledge in each subject. A student must master one level before moving to the next, building a firm base for future learning. This is a concept-based system focuses on understanding rather than memorization with procedures taught later. It aligns with NCERT learning outcomes, helping students achieve them effectively. The system also includes creativity, critical thinking and leadership development as part of regular education, aiming for well-rounded growth.

This approach uses a child-friendly, game-based method. Concepts are taught through activities and interactive ways, without traditional textbooks. Students follow a sequence of knowledge levels. Any extra guidance shall be provided as per the requirement of the particular student.

A key part is knowledge seeding especially in the first two to three years. Children will explore technical, scientific and social topics through documentaries, movies, cartoons, and similar mediums. This creates a knowledge base for learning advanced concepts later. The focus is on learning rather than teaching, different from conventional systems where procedures are executed before concepts.

We shall hold an interactive **Session on 22<sup>nd</sup> March, 2025 (Saturday) at 11.30 a.m.** with the parents for the better understanding of this methodology.

We believe this system will help every child reach their potential in a way that suits them. We look forward to your participation in the session so that we can begin this new approach.

Warm Regards,

H.O.S. (ADMIN.)
